PARTNER WITH US TO PROMOTE YOUR BUSINESS OR WORKPLACE HEALTH MESSAGE

The Australian and New Zealand Society of Occupational Medicine (ANZSOM) is a society where the highest value is placed on **GOOD WORK, SAFE WORKPLACES, and HEALTHY WORKERS.**

With over 460 members across Australia and New Zealand, ANZSOM is the main professional society for those who practice or have an interest in the fields of occupational medicine, occupational nursing and workplace health more generally. As such, we are a key organisation for connecting to occupational medicine and health experts, businesses, services and campaigns.

Our website and eMarketing provide numerous opportunities for businesses and organisations to promote their products, services and campaign, including the Find an Expert page, jobs and course advertising and e-newsletter advertising, as well as advertising opportunities through our webinar program.

This document provides an overview of the digital advertising available including costs and timeframes. We are also open to tailoring to your needs, so please contact us to discuss how we can help.
