Occupational Medicine Inc. (ANZSOM)

Annual Scientific Meeting  
Tuesday 21st August to Saturday 25th August 2012  
Abbey Beach Resort, Busselton WA

**Promotion of Health and Welfare  
at the Workplace**

PROGRAM 2012

# WELCOME

I would like to thank you all for making the effort to attend this conference. Those of you who have also brought family or those who have made plans to extend your time here and visit some of the numerous touristy destinations will not be disappointed. The conference has been designed to be stimulating and interesting. It does not fit a common conference format of didactic lectures throughout the day for the duration of the sessions. Rather we hope we have a balance between the academic presentations and perhaps the less intensive stuff. With the former we have a credible list of fine speakers and with the latter we hope you enjoy selecting from a choice of the birdwatching, the vines, the worksite visits and the snakes. Much effort has also gone into the social program.

I hope you relax, enjoy the collegiate contacts and the South West hospitality. With the limited time available you will be able to only scratch the surface of what the region has to offer.

I would also like to thank Fiona and Jessie as well as the Federal Committee for their professional support. Making the various arrangements across the continent went almost seamlessly. Above all, I would like to thank the wonderful WA Committee who have willingly applied their time and talents to give you this conference. A special note of appreciation also is offered to Lew and Margaret Blake who hosted all of the meetings and served a superb cuisine each time. Without them the planning would not have been so cohesive, satisfying and reliable.

Take it all in

John Suthers

On behalf of the WA ANZSOM Committee:

Lew Blake	Margaret Blake
Steve Clarke	Steve Dennis
Roger Lai	Eugen Mattes
Celine Murphy	Andrew Porteous
June Sim	John Suthers

## SITE VISITS

This year's program takes advantage of the wide range of industries in south west Western Australia, ranging from mining to wine making.

Be sure to confirm your bookings for the site visits on Thursday and Friday afternoons when you arrive. Transport to the site visits is included in the registration cost.

### **Vineyard visit:**

- Thursday 1.00pm
- Friday 1.30pm

### **Talison Lithium Mine:**

- Thursday 12.00pm

### **Bemax Cable Sands:**

- Friday 1.30pm

### **Occupational snake handling:**

- Thursday 1.00pm
- Friday 1.30pm

## SOCIAL PROGRAM

The Margaret River region has so much to offer! The social program provides a taste of the sights, from majestic scenery to galleries and local eateries. The planned programs for each of the three days is outlined below. The final program will depend on registrations.

Transport is provided at a subsidised rate (i.e. \$20pp for the Wednesday tour and \$10pp for the Thursday and Friday morning tours) or attendees are welcome to take their own transport or car pool.

Entry fees, lunches etc will need to be paid on the day. All programs commence at 9am.

### **Wednesday 22nd August**

- Bus tour via Cowaramup (Candy Cow, Gourmet Deli, Home Ware Shop, Soap Factory)
- Margaret River Silk Road, Harmans Mill Road, Chilli Waters
- Lunch at Olio Bello
- Dilkes Hoffman Studio Gallery
- Boranup Gallery
- Voyager Estate Winery
- Simmo's ice cream

### **Thursday 23rd August**

- Cape Naturalist tour (30min walk, photos, tea rooms, museum, whale lookout)
- Sugarloaf Rock (rock formation on the coastline)
- Samudra (yoga and all things healthy, early lunch) 226 Naturaliste Tce, Dunsborough
- Free time in Dunsborough (Christen Fletcher, shopping within walking distance)

### **Friday 24th August - Busselton**

- Busselton jetty, Equinox café near jetty, lunch either before jetty tour or after
- Train tour to underwater Busselton Observatory (\$29.50 inc train ride, jetty entrance and observatory entry)
- If wet (jetty not open) then Old Butter Factory Museum and Old Court House Art Gallery within walking distance
- Free time in Busselton

Thompson Estate WA

Sugarloaf Rock, WA

# DAY 1

# program

## TUESDAY 21st AUGUST

From 5.00pm

### Registration

Ballroom - Abbey Beach Resort

Please remember to confirm your place in the site visits and the social program when you register

6.00pm

### Cocktail reception

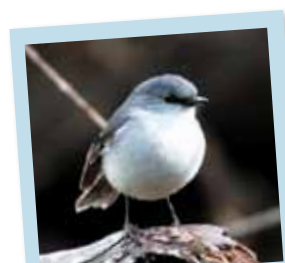

Atrium Lounge Bar - Abbey Beach Resort

### Dining at Abbey Beach Resort

- Breakfast will be served in the Reflections Café from 7am each morning, except on Wednesday when it will open from 6.30am
- Dinners
  - o Wednesday – Reflection Café will be open – bookings required
  - o Thursday – Conference dinner is offsite at Rivendell Winery
  - o Friday – Reflections Café and Atrium Brasserie will both be open – bookings required

### Bird watching

The South West is renowned for its bird life and we have a great opportunity to join Paul Niall as he seeks out species such as the western wattlebird, the red-winged fairywren, the red-eared firetail, the white-breasted Robin; and the infamous noisy scrub-bird and western bristlebird. Paul has been briefed by local members of Birdwatch WA and is planning to host a session each morning and afternoon of the conference - circumstances permitting. Bring your binoculars and suitable footwear and outdoor gear.

White-breasted Robin

Red-eared Firetail

### Major Sponsor

ANZSOM acknowledges Kinetic Health as the major sponsor of the 2012 Annual Scientific Meeting

# DAY 2

# program

## WEDNESDAY 22nd AUGUST

From 8.00am	<b>Registration</b>
8.30am	Welcome, <i>John Suthers</i>
8.45am	Keynote address – Neurotrauma <i>Professor Lyn Beazley, Chief Scientist WA</i>
9.30am	Neuropsychological assessment in occupational medicine <i>Clinical Professor Jonathan Foster</i>
<b>10.00am</b>	<b>Morning tea</b>
10.15am	Chair: <i>Chris Oates</i> My experience in environmental advocacy- the good, the bad and the ugly <i>Dr Bill Castleden</i>
10.45am	Why 'simple' sprained ankles do not always recover <i>Dr Reza Salleh</i>
11.15am	National Science Week, reflections on the role of the Chief Scientist <i>Professor Lyn Beazley</i>
<b>11.45am</b>	<b>Lunch</b>
	Chair: Thomas Rosenthal Fitness to drive
12.45pm	Evidence based, computer assisted measurement of fitness to drive – Driveable <i>Renee &amp; Tim McLennan</i>
1.15pm	Tricky truckies-case studies in fitness to drive <i>Dr Heather Campbell</i>
1.45pm	Fitness to drive Q&A Panel
<b>2.15pm</b>	<b>Afternoon tea</b>
2.30pm	Low Dose Chest CT for Lung Cancer Detection <i>Dr Brendan Adler</i>
3.10pm	Meeting close

# DAY 3

# program

## THURSDAY 23rd AUGUST

From 8.00am

### Registration

Chair: *Steve Clarke*

8.30am

OPAL fuel – engineering out a social problem  
*Mark Glazebrook*

9.15am

Assessing the coronary heart disease potential  
of prospective employees  
*Professor Peter Thompson*

9.45am

Dust Diseases Board of NSW – Meeting our  
clients' needs  
*Sylvia Kidziak, Director*

**10.15am**

### Morning tea

10.30am

Chair: *Eugen Mattes*

Respiratory health effects of occupational dust  
exposure *Dr Alison Reid*

11.00am

Occupational cancer in Australia and New Zealand  
*Professor Lin Fritschi*

11.30am

A cognitive functional approach to manage  
persistent back pain  
*Professor Peter O'Sullivan*

**12.00pm**

### Lunch

12.00pm

Site visit - Talison Lithium Mine

1.00pm

Site visit / workshops

- Vineyard
- Occupational snake handling

4.00pm

ANZSOM General Council meeting

**6.00pm**

**Society Dinner at Rivendell Winery**

# DAY 4

# program

## FRIDAY 24th AUGUST

From 8.00am

### Registration

Chair: *Hilary Oakley*

8.45am

Advising your travelers A-Z  
*Dr Peter Burke*

9.15am

Acute knee injuries  
*Dr Riaz Khan*

9.45am

Hip injuries, arthroscopy and gluteal pathology  
*Dr Daniel Fick*

**10.15am**

### Morning tea

10.30am

Chair: *Edward Foley*  
Elbow instability  
*Dr Angus Keogh*

11.00am

Imaging of shoulder injuries  
*Dr Dirk Sweeney*

11:30am

Hugh Denehy Oration –  
Busselton Longitudinal Health Survey  
*Dr Lew Blake*

**12.00 pm**

### ANZSOM Annual General Meeting / Lunch

1.30 pm

Site visits / workshops

- Vineyard
- Occupational snake handling
- Bemax Cable Sands

# DAY 5

# program

## SATURDAY 25th AUGUST

From 8.30am

### Registration

Chair: *Roger Lai*

9.00am

The OHS Body of Knowledge – Implications for occupational health professionals  
*Dr David Middleton & Pam Pryor*, on behalf of Health and Safety Professionals Alliance (HaSPA)

9.30am

ANZSOM e-Learning Portal – improving access to continuing professional education for occupational health professionals  
*Dr Rob McCartney*

10.00am

Wellness – A cardiovascular assessment of a workforce  
*Dr Patrick Akhiwu*

**10.30am**

### Morning tea

11.00am

Prevention strategies for work-related musculoskeletal disorders in WA  
*Ms Jean Mangharam, WorkSafe WA*

11.30am

Platelet rich plasma treatment for musculoskeletal conditions  
*Dr Jonathan Cook*

**12.00pm**

**Meeting close**

## SPEAKERS

ANZSOM welcomes all our speakers to the conference and thanks them for their generous participation.

### Keynote Address

#### **Professor Lyn Beazley**

AO FTSE, Chief Scientist of Western Australia

Professor Lyn Beazley was appointed Chief Scientist of Western Australia in 2006. She was awarded Officer of the Order of Australia in January 2009 and made a Fellow of the Australian Academy of Technological Sciences and Engineering later that year. She is a member of the new Technology and Industry Advisory Council (TIAC) to the Western Australian Government. In March 2011, she was inducted into the inaugural Western Australian Women's Hall of Fame.

After her education at Oxford and Edinburgh Universities, Professor Beazley built up an internationally renowned research team that focused on recovery from brain damage, with much of the research being conducted at the University of Western Australia.

Professor Beazley has served on numerous bodies advising State and Federal Governments, including advisory boards to the Australian Research Council, the Australian Synchrotron and Western Australia's Low Emissions Energy Development (LEED) Fund. She is a member of several boards such as The Institute for Radio Astronomy Research (ICRAR) and the Botanic Gardens and Parks Authority (BGPA).

## Other speakers, in alphabetical order:

### **Dr Brendan Adler**

MBBS (Hons) FRANZR

Envision Medical Imaging Founder, CEO and Consultant Radiologist

Dr Brendan Adler graduated in medicine with honours at the University of Western Australia in 1985 and has subsequently completed three advanced fellowships in radiology, including thoracic radiology; musculoskeletal radiology and intervention (Vancouver General Hospital 1991-1993); and cardiovascular imaging (Pitie-Salpetriere Hospital, Paris 2006-2008). He was awarded the 2006 RANZCR Rouse Fellowship to complete the fellowship in France.

Dr Adler has held appointments as a consultant radiologist at Royal Perth Hospital and Freemantle Hospital, and as a specialist radiologist at SKG Radiology, acquiring experience in a broad range of investigations and procedures in addition to his specialist interests. He joined Envision in May 2009, taking up the position of CEO in October 2011.

Dr Adler has been active in College affairs, continues to have a research interest in interstitial lung disease and is an author of more than 25 peer-reviewed articles.

### **Dr Lewis Blake**

MBBS FRACGP

Dr Lewis Blake is a long time ANZSOM member and a past Chairman of the Western Australian Branch. He is past President of both the Medical Board of Western Australia and the Australian Medical Association (WA).

As a member of the Australian Medical Council he was present when the (then) College of Occupational Medicine received Specialist Registration as the Faculty of Occupational Medicine of the Royal Australian College of Physicians.

He was born and bred in Busselton. He will deliver the annual Hugh Denehy Oration.

### **Dr Peter Burke**

MBBS FRACGP, DTM&H, FACTM

Dr Peter Burke is a general practitioner with over 15 years of special interest in the health of travellers. He completed the Diploma in Tropical Medicine and Hygiene at the Liverpool School of Tropical Medicine and is a Fellow of the Australasian College of Tropical Medicine. He lectures to University of Western Australia medical students on travel medicine, and frequently presents to doctors. He has previously been Medical Director of The Travel Doctor TMVC Fremantle and Perth clinics, National Director of Travel Medicine for the Prime/Kinetic Health group, and is now based at CBD West Medical Centre in the city. His wider interests include the oil and gas industry and infectious disease risk in the workplace, especially vaccine preventable and zoonotic diseases.

## **Brian Bush**

Herpetologist and consultant

An electrician by trade, Brian Bush gave this away in 1977 to work in the bush as a windmill mechanic and fencer and to pursue his life-long interest in herpetology (reptile and amphibian study). In 1987, he established an education and consultancy business with much of his work devoted to venomous snake management in the workplace.

Brian was the inaugural president of the Western Australian Society of Amateur Herpetologists, a position which he held for 13 years. He also developed the tools and wrote the Standard safe snake catching procedure, adopted by numerous government and non-government organisations, and has authored and co-authored numerous herpetological papers and books. His passion for herpetology has resulted in his involvement in television documentaries, working as a consultant on Sir David Attenborough's *In Cold Blood*. He has found several new species and has even had a snake and lizard named after him. Brian has also provided non-commercially available venoms to researchers.

## **Dr Heather Campbell**

FAFOEM

Dr Campbell is a consultant occupational and environmental physician and is one of two occupational physicians appointed by the Department of Transport to advise on medical aspects of fitness to drive. Her other interests span the oil and gas industry, biological monitoring and health surveillance, and medicolegal medicine.

Dr Campbell is the Chair of the regional committee of the Australasian Faculty of Occupational and Environmental Medicine (AFOEM). She is also a member of the Assessment Sub-Committee of AFOEM and a member of the WorkCover WA Medical Committee.

## **Dr Bill Castleden**

Previously Associate Professor of Surgery at the University of Western Australia and a vascular surgeon, Dr Castleden retired in 1997 to grow avocados and to found Doctors for the Environment, Australia which he chaired until 2009.

Reflecting his ongoing concerns for health and the environment, Dr Castleden was an active campaigner for the abolition of cigarette advertising and for smoke-free flying in the 1980's, and for the preservation of old growth forests in the 1990's. He has also continued to be active in publicising the health consequences of climate change.

## **Dr J A Cook**

MBBS FRACGP GDOH

Dr Cook has been in private occupational medical practice since 1976. His current practice, the Occupational Health Clinic, is in Cavan, an industrial suburb located 10 km north of Adelaide. Dr Cook has been the company doctor for a number of private companies including Gerard Corporation which employed up to 3000 people in the electrical component manufacturing industry at its Adelaide factory site from 1979 to 2002. Dr Cook has a particular interest in musculoskeletal medicine.

**Mr Daniel Fick**

MBBS (Hons) FRACS

Mr Daniel Fick began his career at Sir Charles Gairdner Hospital and Hollywood Private Hospital after completing his medical degree at the University of Western Australia. He expanded his training into several sub-disciplines of orthopaedics including computer navigated trauma and joint replacements as well as arthroscopic procedures of the hip, shoulder and knee. He has a special interest in orthobiologic treatments and accelerated rehabilitation.

**Clinical Professor Jonathan Foster**

FRMS DPhil (Oxon)

Neuropsychologists objectively evaluate changes in memory, concentration, thinking and behaviour that can occur due to a range of clinical conditions and situations, including head injury, epilepsy, stroke, drug and alcohol use, and neurodevelopmental and neurodegenerative (e.g. dementia) and psychiatric disorders. Professor Jonathan Foster has an international track record of expertise in neuropsychology, obtained through his clinical and academic training and experience in the United Kingdom, United States, Canada and Australia.

Professor Foster is clinically registered in neuropsychology in Australia and the UK. He has served on the national executive committees of both the British Neuropsychological Society and the Australian College of Clinical Neuropsychologists as well as a range of other statutory and regulatory agencies. He maintains an active practice in clinical neuropsychology in both the public and private sectors. He has published approximately 100 publications listed by the ISI Web of Science, with a current 'h' citation index of 21. His sixth and most recent book was published in April 2012 by Palgrave Macmillan (London) and entitled: "Nutrition and Mental Performance. A Lifespan Perspective" (Leigh Riby, Michael Smith & Jonathan Foster).

**Professor Lin Fritschi**

MBBS, PhD, FAFPHM

Professor Fritschi is a cancer epidemiologist with a particular interest in occupational causes of cancer. She holds a medical degree from the University of Queensland, and a PhD in epidemiology from the Australian National University. She currently heads the Epidemiology Group at the Western Australian Institute for Medical Research in Perth, Western Australia.

**Mark Glazebrook**

BP Australia

Mark Glazebrook has been with BP Australia for 10 years and currently leads the area of Corporate Responsibility, where he and his committed team focus on implementing BP's recently launched Reconciliation Action Plan. In his presentation Mark will relate his experience in harnessing the collective skills within BP to develop a new fuel called Opal that has significantly reduced the incidence of petrol sniffing amongst remote communities due to its low aromatics formula.

This work is reflective of Mark's earlier experiences, which have involved supporting refugees to access emergency housing, living and working in the Torres Strait, working at the front line of child protection and advising governments and companies on how to provide greater employment options for people with disabilities.

**Mr Angus Keogh**

BSc (Hons) MBBS FRACS

Mr Angus Keogh is an orthopaedic surgeon with interests in hand, wrist and elbow surgery, both traumatic and degenerative. Completing his initial training in Western Australia, he has undertaken post fellowship training in hand surgery at St Vincent's hospital in Melbourne, and in hand and upper limb surgery at Modbury and Royal Adelaide Hospital in Adelaide.

**Associate Professor Riaz Khan**

MBBS BSc (Hons) FRACS

Associate Professor Riaz Khan completed his medical degree in London (Guy's Hospital), and undertook specialist surgical training in Cambridge. He undertook fellowships in Perth with Professor David Wood and in Norwich (UK). He has been in practice in Perth at Sir Charles Gairdner and Hollywood Private Hospitals since 2005.

**Sylvia Kidziak AM**

FAICD FAIM HonF SIA OFIE Aust FISA MICOH MNSA MRMIA

Ms Kidziak is a Director of the Dust Diseases Board of NSW and Chair of the Research Grants and Corporate Governance Committees. She is also the Deputy Chair of the Asbestos Diseases Research Foundation and has participated in numerous inquiries into dust related diseases. She is Chair of the ARPANSA Radiation Health and Safety Advisory Council and has held positions as Chair or Board member on various state and federal government Councils and Committees concerned with health and safety. Sylvia has received several awards for her work which has included extensive advice on policy and technical issues relating to health and safety, medical research and specifically asbestos.

**Jean Mangharam**

BSc(Hons) Physiotherapy (Curtin); MSc (Env Hlth) Ergonomics and Industrial Hygiene, University of Cincinnati

Jean Mangharam is the Principal Scientific Officer/Inspector of the Human Factors and Ergonomics Team at WorkSafe WA. The team addresses hazards that lie within the realms of physical, cognitive and organisational ergonomics. Such hazards include work-related musculoskeletal disorders, slips, trips and falls and psychosocial hazards (usually associated with occupational stress, conflict, aggression and violence).

Jean has practiced as a clinical physiotherapist and consultant ergonomist in Australia, UK and USA, and commenced her position at WorkSafe in 2005. She is currently working on her PhD, conducting epidemiological research in the area of occupational falls, utilising WA worker's compensation data and health administration data.

**Renee McLennan**

Physiotherapist

Renee is a physiotherapist who has worked at Royal Perth Hospital in the areas of neuro and spinal injury rehabilitation for over 10 years. She now is a lecturer at the Curtin University's School of Physiotherapy.

**Tim McLennan**

B Eng (Computer Systems) Hons

Tim is a Computer Systems Engineer, is a managing Director of DriveABLE Australia and currently assists with the administration of the in-office assessments.

**Professor Peter O'Sullivan**

Specialist Musculoskeletal Physiotherapist

Peter O'Sullivan consults at a multi-disciplinary practice (Body Logic Physiotherapy) and also holds a part time appointment at Curtin University as the Professor of Musculoskeletal Physiotherapy where his team conducts research into the mechanisms and management of persistent pain disorders. His particular expertise lies in linking clinical research to the clinical setting.

He and his team have published over 100 papers in international peer review journals. He has also presented at more than 60 national and international conferences.

**Dr Alison Reid**

PhD

Alison began her research career at the Office for National Statistics (ONS) in London, after completing an MSc in Medical Demography at the London School of Hygiene and Tropical Medicine and a BSc (Hons) in Anthropology at University College London.

Alison returned to Australia in 2001 and worked on an Aboriginal Birth Cohort study at the Menzies School of Health Research before coming to Perth and working on the Wittenoom cohorts with Bill Musk and Nick de Klerk in 2002.

Her PhD focused on the health outcomes of women exposed to blue asbestos at Wittenoom.

She is now a Research Associate Professor at Western Australian Institute for Medical Research (WAIMR) and is researching work-related accidents and fatalities and workplace exposure hazards among migrant workers, as well as continuing to work on the Wittenoom cohorts.

**Mr Reza Salleh**

MBBS FRACS

Mr Reza Salleh is an orthopaedic surgeon who has undertaken extensive sub-specialist training in foot, ankle and knee surgery in Melbourne, Sydney and at Guy's Hospital in London.

Since his return to Western Australia in 2006, Mr Salleh has established a practice specializing in arthroscopic surgery of the knee as well as all aspects of foot and ankle surgery. He has a specific interest in foot and ankle trauma and in particular with minimally invasive and arthroscopic techniques to improve outcomes and improve recovery times.

**Dr Dirk Sweeney**

MBBS FRANZCR

Dr Sweeney is a local graduate who completed his radiology training in Western Australia. He obtained a musculoskeletal fellowship in Vancouver and is currently head of musculoskeletal imaging at SKG radiology.

**Dr Peter Thompson**

AM MD MB MBA BS FRACP FACP FACC FCSANZ

Dr Peter Thompson is a highly experienced cardiologist with special interests in acute coronary syndromes and prevention of atherosclerosis.

He is currently Clinical Professor in Medicine and Population Health at the University of Western Australia, as well as Deputy Director of the West Australian Heart Research Institute and Deputy Director of the West Australian Institute for Medical Research. In addition he works closely with the Heart Foundation to support community control of heart disease.

Dr Thompson has held the position of Consultant Cardiologist at Sir Charles Gairdner Hospital since 1972 and was Cardiologist in Charge of Coronary Care at SCGH until 2005. In addition to his private practice in cardiology at Mount Hospital, Dr Thompson also consults at Bunbury and Busselton.
